**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 7-9, 11-18 20-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Reigrut et al. (US 5,575,138).

Reigrut et al. disclose a stretch wrapping dispensing apparatus comprising film support; first and second rollers 25 and 26; take off device 68, 69; elongated flexible member 63 (see figures 3 and 4); guide assembly with sprockets; see figure 3; disengagable drive with clutch 61 with sprocket 62. Spring 44 acts on sheave/tensioning assembly 43.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 6, 10, and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reigrut et al. (US 5,575,138).

Rollers of Reigrut et al. are not specified of different diameters, however the examiner takes OFFICIAL NOTICE that it would have been obvious to one of ordinary skill in the art to modify one roller larger than the other as a matter of design choice.

Applicant has not disclosed that different diameters provides an advantage, is used for a particular purpose, or solves a stated problem. One of ordinary skill in the art, furthermore, would have expected Applicant's invention to perform equally well with equal diameters because the rates of rotation are operably controlled.

Regarding the take off device, Reigrut et al. discloses bars not rollers however the examiner takes OFFICIAL NOTICE that these are recognized equivalents in the art and are easily substituted for the same purpose (ie. guiding the web).

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R Harmon whose telephone number is 571 272 4461. The examiner can normally be reached on Monday-Thursday from 8-6.
